TECHNICAL SKILLS

Languages:

C, Java, Python, JavaScript, SQL

AI / ML:

Machine Learning, Generative AI, Computer Vision, PyTorch (Basic), TensorFlow (Basic), Scikit-learn, XGBoost, Random Forest, SHAP

Data Science:

NumPy, Pandas, Jupyter Notebook, Kaggle

Geospatial AI:

Google Earth Engine, QGIS, GeoPandas, Rasterio, LST, NDBI, NDVI, NDWI, ERA5 Climate Data, Satellite Image Processing

Backend:

Spring Boot, Spring Data JPA, Spring Security, Hibernate, Lombok, Maven, REST APIs

Databases:

MySQL, Firebase, PostgreSQL (Basic)

Frontend:

HTML5, CSS3, JavaScript

Cloud / DevOps:

AWS (Basic), Azure (Basic), Git, GitHub

Tools:

Google AI Studio, Postman, VS Code, IntelliJ IDEA, Eclipse

LANGUAGES

• Bengali — Native/Bilingual

• English — Professional

• Hindi — Professional

PROFILE

Computer Science & Engineering undergraduate specializing in Artificial Intelligence & Machine Learning, with hands-on experience building AI-powered applications, backend systems, and data-driven solutions. Strong practical exposure to Generative AI, computer vision, geospatial AI, prompt engineering, cloud/data tooling, and full-stack development.

PROJECT EXPERIENCE

BharatBuy — AI Procurement Intelligence Platform

• Building an AI-powered procurement intelligence platform for startups that evaluates supply/procurement requirements and recommends suitable BIS-oriented sources, suppliers, and sourcing locations in India.

• Designed whole-package and item-by-item evaluation flows, with Gemini-based grounded explanations and procurement decision support.

• Integrated Leaflet-based India-focused geographic visualization and worked across frontend, APIs, data processing, and product architecture.

AI-Based Urban Heat Mitigation System — CodeBreakers X

• Led the ISRO-focused team concept integrating satellite imagery, meteorological data, and AI/ML to identify urban heat hotspots and recommend location-specific cooling interventions.

• Worked with Google Earth Engine, QGIS, Python, Pandas, NumPy, GeoPandas, Rasterio, Scikit-learn, Random Forest, XGBoost, and SHAP.

• Designed explainable analysis using LST, NDVI, NDBI, and NDWI, with scenario-based mitigation recommendations and interactive visualization.

BazaarBuddy AI — Multilingual Vision-Based Travel Assistant

• Built an AI travel assistant for Kolkata using Google Gemma and computer vision to interpret street signs, menus, public notices, markets, and urban content, responding in Bengali, Hindi, and English.

Event Radar — AI-Powered Event Discovery Platform

• Developed an AI-powered event discovery experience using Google AI Studio, Generative AI, prompt engineering, and AI-assisted application development.

JanAwaaz — Civic Issue Reporting System

• Designed a full-stack civic complaint workflow with Spring Boot REST APIs, Firebase real-time features, and MySQL database management.

Additional Development Projects

• Built a Spring Boot currency-exchange backend and a Java/MySQL transaction management system, applying REST APIs, OOP, and relational database concepts.

• Academic algorithm work includes a Brute-Force Traveling Salesman Problem implementation and complexity analysis (O(n!)).

EDUCATION

B.Tech in Computer Science & Engineering (Artificial Intelligence & Machine Learning)

Brainware University | Kolkata, West Bengal, India

2024–2028 | Currently in Semester V / 3rd Year

LEADERSHIP & ENGAGEMENT

Campus Ambassador — Tata Imagination Challenge 2026

• Selected and onboarded to represent the challenge on campus, encourage participation, and promote innovation.

Google for Developers — Build with AI Bootcamp, Kolkata

• Participated in hands-on AI application development covering Generative AI, AI agents, workflow architecture, and practical solution building.

CERTIFICATIONS & ACHIEVEMENTS

• GREEN Olympiad for Youth (GO4Youth) 2026 — Certificate of Distinction, TERI.

• NEXATHON 1.0 — Participant, Brainware University (2025).

• HackSpire'25 — Participant, FIEM – ACM Student Chapter (2025).

• Build with AI Bootcamp, Kolkata — Certificate of Participation, Google for Developers.
